

# AIM Series

## Industrial-Grade Ozone Generators

Using our 30 years of experience in the ozone manufacturing industry, we designed the best value in the ozone generators on the market today. The AIM series generators are designed using our patented "Cold Spark" corona discharge cells, exclusive to Ozotech products, for maximum performance.

AIM series generators can be controlled manually or electronically by any 4-20 mA or 0-5 VDC control output from your ORP or ozone controller, is air cooled, and feature a digital readout.
