

Mirco Max

Ozone Air Treatment

Incredible quality and value in an ozone air treatment system that provides flawless service and performance. Micro Max is a high-tech portable device for the control of noxious odors, toxic gases, bacteria, virus, mold and mildew through oxidation. These units destroy organic odor and fumes through the principle of oxidation. Note: Ozone accumulation varies with odor intensity and air temperature.

Applications include: RV's, boat cabins for mold, mildew and odor, tobacco odors, animal odors, fire restoration, restrooms, used car detailing, and for pet cages

Features

- Tubular technology – No plates or screens to clog up or short out
- Attractive powder-coated aluminum enclosure
- 100 G/hr ozone output
- 12 VDC, 320 mA
- Medium frequency, solid-state electronics
- Wall mountable, compact size, high reliability
- Easy to service
- Built to treat a 3,000 cubic foot area or less
- Quiet— 26 dba noise level fan

Benefits

- Compact size, consistent ozone output, rugged enclosure and portability make this unit perfect for many applications.
- Compact size
- High reliability
- Lightweight and corrosion resistant
- Easy to service

* Areas being treated with Air Max systems must not be occupied by humans or animals during the operation of these systems.
