

Air Max Series

Ozone Air Treatment

Incredible quality and value in an ozone air treatment system that provides flawless service and performance. The Air Max series removes odors from smoke and cooking, stops the build up of surface mold and mildew, and promotes safe and effective storage environment for fruits and vegetables.

Micro Max

- Tubular technology – No plates or screens to clog up or short out
- Attractive powder-coated aluminum enclosure
- 100 MG/hr ozone output
- 12 VDC, 320 mA
- Medium frequency, solid-state electronics
- Wall mountable, compact size, high reliability
- Easy to service
- Built to treat a 3,000 cubic foot area or less

Mini Max

- Powder-coated aluminum enclosure for commercial use
- 500 MG/hr ozone output
- Low 24 watt power consumption
- Lightweight, corrosion resistant, high reliability
- Easy to service
- Variable or timed output
- For rooms that are less than 10,000 cubic feet*

WARNING: This product can expose you to chemicals, including mercury, which is known to the State of California to cause birth defects or other reproductive harm. For more information, go to www.p65Warnings.ca.gov.

Mega Max

- Rugged powder-coated aluminum enclosure for commercial use
- 2000 MG/hr ozone output
- 0-100% variable control ratio for precise ozone level control
- Channeled air for optimum efficiency
- Plug & Play – no assembly required
- "Cold Spark" CD Technology makes it the most reliable unit on the market
- For rooms that are less than 25,000 cubic feet*

WARNING: This product can expose you to chemicals, including mercury, which is known to the State of California to cause birth defects or other reproductive harm. For more information, go to www.p65Warnings.ca.gov.

* Areas being treated with Air Max systems must not be occupied by humans or animals during the operation of these systems.
