

AIM PCS 400

Ozone Generator System

The AIM PCS 400 offers maximum flexibility, efficiency, and effectiveness for many applications around the world. With our patented cold spark corona discharge technology built in, the AIM PCS 400 is able to adapt to many different configurations for your specific application. This new technology also allows the AIM PCS 400 to deliver effective results you can count on at the best possible value.

HIGH OR LOW OZONE OUTPUT

Equipped with a "Low" and "High" setting. The "Low" setting will produce 220mg/hr. ozone, while the "High" setting will delivers 440mg/hr. ozone.

FLEXIBLE CONFIGURATIONS

Use in a variety of configurations to accommodate a wide range of applications. Configurations include a standard AC to DC wall transformer, a cigarette lighter adapter or twisted wire for connection to a hard 12 VDC source such as a car, boat or RV battery circuit.

APPLICATIONS:

- POE water treatment
- Water vending machine
- RO storage tanks
- Spas

ELECTRICAL:

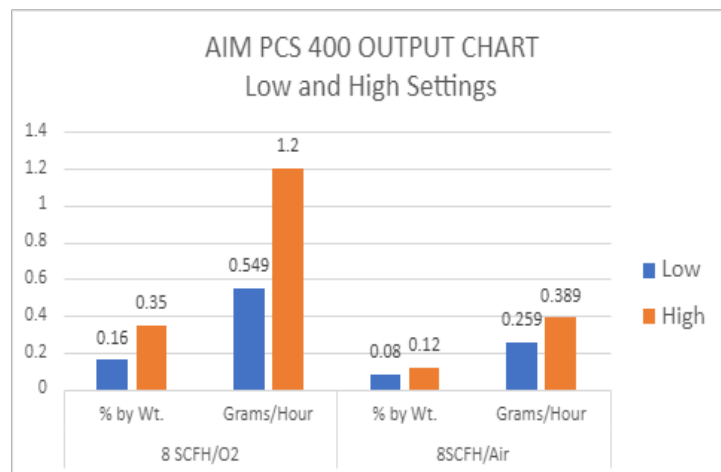

8.4 Watts to 15.6 Watts
110/220 VAC, 50/60 Hz regulated to 12 VDC/2 Amps

OZONE OUTPUT:

220mg/hr. (low)
440mg/hr. (high)

DIMENSIONS:

6" W x 9" H x 5" D
Shipping Weight: 5 lbs.
