

## Poseidon 200 Ozone Generator

The Poseidon 200 is designed to enhance the quality of your aquarium tank water with a system that improves visibility; boosts your overall viewing capabilities; preserves and brightens vibrant colors; and helps develop a healthier environment for aquatic inhabitants

The ozone technology inside the Poseidon produces 220 mg/hr of ozone. The power supply converts 120-240 VAC/ 50-60Hz to 12 VDC to operate with safe, low voltage operation. Ozotech is excited to introduce you to the ozone generator proven to maximize your aquarium experience.

### ELECTRICAL

Power: 7.2 Watts

Primary Voltage:  
120-240 VAC, 50/60 Hz regulated to 12 VDC

Current: 0.6 Amps

### OZONE

Variable Output:  
0-220 mg/hr  
0-1 g/hr with oxygen input

### DIMENSIONS

7" x 4.5" x 1.5" (WxHxD)  
1 lb. Shipping Weight
