

AIM PCS 400 Ozone Generator System

The AIM PCS 400 sets itself apart by seamlessly integrating into various setups, allowing users to tailor its operation to their precise needs. What truly sets the AIM PCS 400 apart is its ability to deliver consistent, reliable results without compromising on value. By harnessing the power of cold spark corona discharge, it not only achieves superior outcomes but also maximizes cost-effectiveness, making it an indispensable asset across industries.

From large-scale industrial operations to smaller-scale applications, the AIM PCS 400 offers unmatched adaptability and performance, making it the go-to choice for professionals seeking unparalleled results without breaking the bank. With its proven track record of excellence, it's no wonder that businesses worldwide rely on the AIM PCS 400 to meet their ozone generation

HIGH OR LOW OZONE OUTPUT

Equipped with a "Low" and "High" setting. The "Low" setting will produce 220mg/hr. ozone, while the "High" setting will delivers 440mg/hr. ozone.

APPLICATIONS:

- POE water treatment
- Water vending machine
- RO storage tanks
- Spas

ELECTRICAL:

Power: 8.4 to 15.6 Watts

Operating Voltage:
100-240 Vac, 50/60 Hz regulated to 12 Vdc

Current: 0.7 to 1.3 Amps

OZONE OUTPUT:

220mg/hr. (low)
440mg/hr. (high)

DIMENSIONS:

6" W x 9" H x 5" D
Shipping Weight: 5 lbs.
